How does this year deliver your curriculum intent?

In Y11 students will start the year by continuing with **R097** content in preparation for NEA. Students will look at the technical skills required to be successful with their NEA submission whilst revisiting the planning concepts covered at the end of Y10. Once students have completed their NEA for **R097**, students will return to **R093** content. New content, such as distribution of media and properties and formats of media will be covered, and prior knowledge will be recapped in readiness for the upcoming final exam. In addition to this, students will reflecting on trial results in order to identify individual gaps in knowledge which will allow students to revise more effectively.
