	Biopsychology (Paper 2)			Attachment (Paper 1)	Attachment (Paper 1)				
	Issues and debates (Paper 3)				Trial Week	Issues and debates (Paper 3)			

How does this year deliver your curriculum intent?

Student inquisitiveness of the world around them is driven through the investigation of theoretical and research concepts whilst allowing students the opportunity to examine and analyse different perspectives, and psychological concepts. This year students will become proficient in critiquing research and theories, debating opposing explanations to behaviour and unpicking research. Students will see the application of psychological ideas and research to policy development and society in general.
